Mr. Speaker Colfax has repeatedly declined eing a condidate for Senator from Indiana, preferring to serve the District which has so often nated for Congress from the South Bend District, and will leave on the day of adjournment for his frome to canvass his district for a re-election.

The Newharyport Herald says it is rumored that Gen. Butlet will run for Congress.

Comical Scene in a Church.

From the Newark (N. J.) Counce.

On Subtath hast, in our of non-prominent Brood street churches, the closs cases of the atmosphere produced an almost irreshable letting of thousiness monog many of the congregation. Of the mainter who tomat it impossible to deny third dways goe do our most successful business men, whose boness efforts to throw off the sommine influence he was unter when without either successful business in n, whose boness that the successful business in n, whose boness that the tension open again, and his head brigan to nod to this and that neighbor quite lamillarity. Presents that the effect of the successful business and continued to sag, sag, sag, in that direction, until a delicate sorie, can yieldy a hat pointed directly into the ear of the shoozing hash ind. One more brech of the head on "that line" would causa the typering sprig to enter, and pecularly affect the sensitive portion of that delicate organ, and several persons in the gallery were given breathess attention to the security anacchating an extraordinary denomence.

summer Scenes on Lond Jaland Heach and Elizewhere. The contention has been described by the challes aftered to to the Scene fully anticipating an extraordinary denomenced when the connection between the connection of the book of methado between the connection of the book of methado Bless and the connection of the book of methado Bless and the connection of the book of methado Blessian and the book of methado Blessian and the book of methado Blessian and the book of the book of methado Blessian and the book of the book of methado Blessian and the book of t

FENIANIŞM.

THE FIRST DAILY PAPER IN THE OIL REGIONS

Meeting of the Brotherhood in Detroit— Speech of one of the headers—His Opinion of A. Johnson and Cabinet.

A public meeting of the Fenian Brotherho was held in Detroit on. Friday night, at which engthy address, which was listened to with at ention until a late hour. From a report in the Detroit Free Press—the Copperhead A. Johnson organ of that city-we take the following synop-

A large public meeting, under the couspices of leading effices of Charleston, was held a few only hope of the restoration of the Union, which is to select delegates to the Philadelphia National Union Convention, and and tending directly toward masters and mistree the Saciety provides and testing directly down and masters and his extress efforts for the Union and tending directly toward masters and mistrees and testing and testing and the Union and attesting directly coveration of the Union and of peace, with several resolutions, were carried by acclaimation. The first resolution denominees the Radici pholicy as lossite to the Constitution and tending directly toward masterly and instruction of the Union. The thred indores the call for the Union and tending directly toward masterly and mistruction of the Union. The thred indores the call for the Union, and bits cancest efforts for the speedy restoration of the Union, which is to select delegates from South Corolina.

There was an immense gathering of the knights of the can in Philadelphia Tuenday evening, the occasion being the formal opening of a new bidinary superior "standard Amerikani" tables on the must like the formal opening of a new bidinary superior "standard Amerikani" tables on the must like the formal opening of a new bidinary superior "standard Amerikani" tables on the must like the formal opening of a new bidinary superior "standard Amerikani" tables on the must like give the control of the Columbia to select delegates from South Corolina.

There was an immense gathering of the knights of the can in Philadelphia Theesday evening, the occasion being the formal opening of a new bidinary superior "standard Amerikani" tables on the must like give the control of the control and an discussion and hard feeting min occur raised, was not squandered; no greater care or economy had ever been observed in expenditures than in these. Arms and amministion had been purchased with the funds, bit a great many of them had been taken from them by the United States, even, he clarged, after they had once soft them, knowing as well their destination and pra-tices, when the destination and pra-tices are some second or the second of the con-posed use before as after the inovenient had been

HORRISLE DEATHS.

Three Men Suffocated in a Well.

ment of the policy.

"Seriously, it is time for Mr. Johnson to tell the country just what his policy is three are grave doubts on the subject in the unlinds of his bast friends. Is it simply to seem to tell it may be seen the light of the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it the persons of men capable of submitting to it to give a posturamous representation to be the bodies of the people of this country, principally bocause it was the pointing of the persons of men capable of the people of this country, principally bocause it was the pointing of the persons of men capable of the persons of men capable of the people of this pointing of the persons of the people of the persons of men capable of the persons of the submitted of the persons of the persons of men capable of submitted of the persons of th

was heaufficient, and losing his consciousness he iell.

By this time all the members of the fainthies were assembled at the well, and the scene was one that need not be described. In the contrasion a boy, a relative of one of the men, tashed to the well, and in spite of the resistance of the women get himself into the month of It, but he soon felt the stifling effect of the air, and started appands in time to save his life. Afterward the three men were dragged out with hooks, we inderstand, and yesterday the funcardated phace from the homestead.

They were all much respected and wealthy. Merlin was about sixty years of age, and the others between forty and fifty

XXXIXth Congress-First Session. Попак-July 26, Mr. Rice introduced a joint resolution to con act with Miss Minule Ream for a life-siz

The House proceeded to the consideration the bill reported last Tuesday from the commit-tee authorizing the psyment of the rewards for the capture of Jeff, Davis and the meansnine of President Lincoln.

Mr. Delapo offered a substitute allowing th

award of Judge Holt.
Mr. Driggs offered an amendment allowing the award of the War Department in regard to the captures of Booth and Harold, giving \$3,739 to Col. Baker, \$7,500 to Lieut. Doherty, \$4,000 to each of the detectives, to Sergoant Corbott and the other sergennis of the party, \$2,345, and so the corporate \$5,301, and to private \$6,000.

money out of the war than any other may

Storens protested against \$8,750 being paid to Colonel Baker, a man who, he said, was not out of this city at the time, and who made more

Mr. Driggs added that Baker was building a large hotel in Landing Mich., so he was in ormed, out of the money be made of the war.
Mr. Hotchkiss scoffed at the idea that because Colonel Baker was building a hotel, that was a organient against his getting a proper share o

Mr. Stevens remarked that the evidence for nished by the War Department showed that Collaker had done no service at all, Mr. Hotchkies contradicted that, asserting the

the evidence furnished by the War Department gave Col. Baker the entire credit for having A REPORT ON NEUTRALITY, BY THE COMplauned, originated and executed the enterprise. He gave equal credit to Lt. Col. Conger for his efforts at the time Booth was shot and said that as Booth was dragging blusself to the door of the barn with his mass trailing, and evidently intended to surrender. Corbett, who was then as insane men and who had since died in a lunation asylum, thrust his pistol through a crevice in the barn and firing at random, the ball striking Booth near the very sput where his murderous hall hit President Lincoln. Corbett's version of the trunsaction was that he fired the shot because Providence directed him, and Conger came to the conclusion that the best thing to be done

was to let the matter pass.

Mr. Schenck inquired upon what principle the ommittee gave \$17,600 to Col. Baker. Mr. Hotelikiss replied that they had to give

iim the same as Conget. Mr. Schenck inquired how the Committee at rived at \$17,500 for Conger:

Mr. Hotchkies replied that it was by comparing his survices with those of the others of the

թաւլչ. Mr. Schenck happired whether, in the only kindred application of prize money, there was not a law which gave the commander of an exedition not being with the expedition, an admiral commutating a squadron, one-twentieth of the whole price money, and whether instead of giving one-twentieth to Baker they ha? not remorneaded his getting nearly one-fourth, name v. \$17,500

Mr. Hotchkiss replied that he was no judge of a prize court, and did not know anything about the rules of a prize court and distribution. The ommittee had gone into this matter by the rule of merit, the same as if they had been jurors or referees. He went on to say that a telegram had been shown him from Lieut Doberty, saving that great frand was being perpetrated, and that he wanted the American Congress to stop the wheels of legislation and wait till he was heard. Lieut, Doberty had been before him time and again on the matter. He had large rolls of dueneuts from him. He wished to avoid saying anything about Lieut. Doberty, but he would say uon, since Doberty had the impudence to say what he did say, that he believed this Lieur Deherty was a downright contact in this expedition. He believed the evidence established that while five men were guarding the tobacco-houswhere Booth and Harrold were and while Cor ger was getting a guard around, this Llout Da herty was lying under a slied, and no power of Conger's could drive him out of it; and no Lient. Doherly come in and claimed that he did the whole work.

Referring to the allusion to Baker's wealth in aid that to-day baker was a hankrupt and that he had never received compensation in propos

tion to his services.

Mr. Driggs denounced the report of the com mittee as a great outrage. He admitted that Conger should get at least \$10,000, but he could not understand what influenced the committee to give nearly one-fourth the whole amount to Mr. Hotelikias wanted the House to take no

tice that improper influences were charged upon the committee by the gentlemen from Michigan, Mr. Driggs disclaimed any persond allu-Mr. Hotelikiss remarked that that was like

wringing a man's nose and then sell him be meant no personal offence. [Laughter.] Mr. Trawbridge expressed the hope that his oldergue's [Driggs'] amendment would not be

adopted, as it did not do justice to Lieut. Col Conger, who had command of the expedition but whose muster out of service was a few days refore and was not known by him. Then, after some further discussion, the House proceeded to vote. the questions was first taken

in the amendment offered by Mr. Driggs and It was rejected. The question recurred on the amendment offered by Mr. Delano and it was the detectives \$1,000 and Boston Corbett and each man of the party of the i6th New York Cavalry \$1,653,

Savairy \$1,653.
The bill as unrended was passed.
Senate, July 26. The credentials of Mr. Patterson, Scuator elect rom Tennessee, were taken from the table and

Mr. Summer moved that they be referred to the Committee on the Judiciary to inquire whether Mr. Patterson can take the oath. He cited the case of Mr. Stark, of Oregon, as a

pressed sympathy for the rebels, while he was der the robel authorities and must have taken Considerable debate took place on Mr. Sum

ITS RAVAGES AMONG THE SOLDIERS NEAR BAVANNAH. REPORT OF THE MEMPHIS RIOT COM-

MITTEE ON FOREIGN AFFAIRS. TERRIBLE TORNADO AT HAVRE DE GRACE. New York, July 21, The cholera is again increasing with the return of warm weather. Sixteen new cases were re-ported, of which several have been fatal. A very bed state of affairs prevails on Ward's Island. Several persons have died of cholera and there are now eleven hopeless cases there. It was expected that the epidemic could be controlled. A cholera nest has been discovered in the lower part of State street and 113 Mulberry street.

victims, eleven cases being reported. On Gov-ernor's Island affairs looked promising, no new cases having occurred. The number of burial permits since Sunday last was 420, and the num-ber of fatal cases of cholera 20, which gives a more favorable report thee during the same number of days last week.

Four Fenians, named Dillon, Ellis, Corney and

oon be released. The Causalian militia, it is officially announced will be a med with repeating riles.

Washington, July 26.

The report of the Select Committee appointed to investigate all matters connected with the Memphis riots and massacre was made to the House last night. It is signed by Represents tives Washburne, of Illinois, and Bromatl, of usylvania, the other member, Mr. Shanklin of Ky., dissenting. They say the outbreak of the disturbance resulted from a collision between some policemen and colored soldiers, which sed upon as a pretext for an organized and bloody massiers of the colored people of Memphus, regardless of age, sex or condition, inspired by the teachings of the press and led on by the swotn officers of the law, comprising the city government and others, the whole evidence duclosing the killing of men, women and children, the immeent, unarmed and defenceless pleading for their lives and crying for merey; the wounding, beating and matricaling of a still greater number, burning pillaging and robbing, the consuming of dead bodies in the lisanes, the burning of dwellings, the attempts to burn up whole families in their houses, and brut il and revolting ravieling of defenceless and terrore stricken women. The report recapitulates the number of colored people killed at 46; whites, two; wounded, 77; rapes on colored women, 5; maltrented, 10; robberies, 100; induste and cabinburned, 91; churches, 4; school-houses, 12; value

flag. The state of things in Memphis is very much as it was before the breaking out of the rebellion. The Committee deliberately state that in their judgment there will be no safety to loyal men either white or blacks; and should the troops be withdrawn and no military protection afforded the Committee believe it to be the daty of the Government to arrest, try and punish the offenders by military authority, and also by the same authority lays a lay upon the citizens of Memphis sufficient to cover the losses of all roperty destroyed. General Banks, from the Committee on Poreign Affairs, has presented a report on the subject of Neutrality the concidentian of which has been postponed until ro-day. It searches theroughly the history of American Neutrality laws from the stringent acts of 1794 and 1797, designed to

of property destroyed, \$130,831. The Commit

teo say the feeling in Memphis, and indeed through that entire section of the country, shows

there is little loyalty to the Government and

protect the then infant republic, and too great oncession to Spain and Fogland, down to the recent exhibitions of neutrality by England and the United States. In the affairs of the rebels and the Feniaus the report regards the laws of and the remains the report regards the laws of state of the state of t philosophy and imposed upon the country by considerations affecting the interest of other nations instead of our own, and hold that the highest laterests of civilization demand that the libertles and rights of neutrals should be exlended and the privileges and powers of State of war diminished. The law of 1818, it will be remembered, en acts that all concerned in fitting out any vesse with Intent that such vessel shall be used in war

against any State with whom we are at peace shall be fined not more than \$10,000 and imprisoned not more than three years. Another of the act requires that owners and consignees of armed vessels shall enter into heavy bonds to informed Mr. Patterson had acted as Judge unkeep the peace; that Collectors shall detain yeson the nicest suspicion, and makes citizens of the United States responsible for the note of foreign subjects who are beyond the jurisdiction of the United States. The report proposes the modification of these provisions, whose effect is by 26 year to 14 mays, to perpetuate the subjugation of States withou naval force with the will of maritime nations.

It is not proposed that a modification of our statutes shall absolve Great-Britain from our re cent claims on her. The United States have carried out in good faith their too stringent new trality laws. Great Britain has not respected her ess exacting oldigations. The report concludes with an allusion to the recent neutrality in the case of the Feuisns, and does not disguise the strong sympathy of Americans with all suffering unitonsities. It declares in behalf of Congress and the American people

that England owes reparation to Ireland

NEW YORK, July 26. The official report on cholers in this city show that the first death of cholera accurred on the first day of May and up to last evening there had been 56 deaths. READING MATTER ON EVERY PAGE.

How Oll was Discovered. Col. E. L. Drake has for the past few days beer visiting our city, the seene of his former labors and triumphs, as the original pioneer of the petroleum business. We have collected from him some reminiscences of that great discovery may be of some interest to our readers. His first visit to Titusville was in the year 1857. This was before the building of the A. & G. W. & E. Roads. At that time there was a population of about 125 in Titusville, no churches, two hotels—the Eagle, which has been removed, and the American, which has been so renovated as not to be recognized. Among the amilies here at that time were those of J. L. and E. H. Chase, the Titus's, and Brewer & Watson; the latter were engaged in the lumbering busi-The stages run twice a week from this point to Erie. At that time the oil was collected from the springs on the Flats by means of blankcts or cloths, and bottled for medical use. It was also used for lighting the mills. While sitting in the store (now Ames') his attention was called to the bottles of oil, and he expressed incredulity when told it oozed from the ground, and the ext day accompanied Dr. Brewer down the Flats to examine the phenomenon. He says when he found their statements verified, the lifer flashed upon him that there was a basin or spring of oil in the carth or rocks below, and that he then formed the resolution of sinking a well.-On his return to the East, he told his friends of the experimenthe wished to make, and expressed the belief that oil would yet be found in immense quantities in this region, and become used extensively in commerce and the arts. The popula idea in this section and even the scientific opinions of Profs. Silliman and Park whom Mr. Druke consulted, on his return to the East, were that the oil was the drippings of the coal, imbedded in the contiguous hills—that it was idle to hard for it, and that the only method of accumulating t was by digging ditches leading to a vat .-There were no books to be found in the country which treated of the subject, and Mr. D. has never had any practical experience in boring but he was unable to divest himself of the ide that this was the true method, on idea which haunted him day and night. He induced some men of capital to embark with him in the enter entered upon his experiments in the spring of '58. His first step was to visit the odus operandi. Finally he selected a spot near Ames' Mill, below Walson Flats, and was de layed till the spring of '59, before he had secured a competent driller and the necessary tools. His supposition was that he would have to sink his of tools were used then as now. The driller charged one dollar and a half per foot for boring. The enterprise was the subject of a good deal of ridicule in these parts, and many persons made themselves merry at the expense of the pioneer. justance will prove this, Mr. D. made several contracts with a number of practical drillers which were successively broken. He at last ascertained that the cause of it was that his scheme of horing for oil was looked upon an entirely visionary, and that he was regarded as a monomaniae on the subject. He finally resorted to an innocent deception to secure an operator giving out that he intended to here for a sait well. A scries of annoyances and delays, as we before

remarked intervaled to prevent operations til the month of June '50, Mr. Dinke's assistant proposed to crib to the rock, which was the invariable practice. In those doys. Mr. Drake advocated the driving of from tube to the rock—an idea which the miner scouted, but having failed to crib, owing to the water, the tubing was tried and proved a success. This was an entirely new feature then, but is now thu universal practice. Indeed, it is now applied to putting down fresh water wells. Had Mr. D. procured a patent to which he was justly entitled for the invention, he would have realized a for

The pipe was driven thirty-two feet to the rock and then the well hared thirty-seven feet and six inches in the first sand rock. Not having any pipe Mr. D. commenced pumping before he had tubed the well, using a common iron water pump for the purpose, fastening the handle of pump to the walking beam. Satisfied by process of the presence of oil in considerable quantities in this well, he then went none there, nor at Buffelo, and finally ordered it from Philadelphia. After tubing the well it turned out a complete success, pumping twentyfive barrels a day, and continuing when in oper ation to yield about this quantity, for the period

Mr. D. was then in the position of the mar who drew the elephant at the raffle, and did not know what to do with it after he get it, oil being comparatively good for nothing. Then there was no home or foreign demand for it, no reflueries in existence, and its Hluminating and lubricating properties were not then discovered, The parties ongaged in the manufacture of coal oil were slow to acknowledge, or discover that petroleum possessed equal illuminating qualities. The first refiners who commenced refining petroleum were James McKeown and Samuel

Kier of Pittsburgh.

From this period it came explitly into commercial use, stimulated development, and rose in value in a corresponding degree. Few can ap-preciate the delays and difficulties incident to this discovery. It was necessary to go to Eric and more frequently to Pittsburg for everything in the way of machinery. The few stores here were only supplied with tools for lumbering and farming purposes. On one occasion, Mr. D. n pick, two shovels, a chain and some There were only two stores in Titus ville at the time-Brewer & Watson's and Mr. R. D. Fletcher's, but their assortment did not contain the articles needed. Mr. D. went to Hydetown, and bought his pick of Charles Hyde, (now an oil millionaire) who kept a country store in a tumble down log-cable in that place bought his spikes of Samuel Q. Brown (another of millionaire,) at his store, Pleasantville; procured his chaln of David Mitchell, (another oily millionalre,) at his store in Enterprise; but was obliged to send to Erie, a distance of fifty miles for two shovels. Mr. D. engaged in putting down other wells, but failing health compelled him to abandon his undertakings here and return East, before the era of speculation set in, and before pe-troleum had produced such a revolution in the commercial world, and become the most fruit-tal source of individual and national wealth that has over been discovered. The revenue derived from petroleum during the years '64 and '65 was than that yielded by both from and conf during the same period. Constituting a medium of exchange with foreign countries, in the opinion of importers, petroleum alone enabled this country to successfully carry on and terminate

The friends of Col. Drake without the knowledge of that gentleman a few months alice, prepared a memorial to Congress praying for an appropriation for his relief, in conside the vast benefits he has conferred upon the commerce of the country and the Government. The application has received the highest endorsement from the press of the country and the public at large, and we have no doubt that it will meet at the bands of the next Congress with a favorable

The Fire Department.

The Common Connell, on the 19th of April ast, passed an ordinance providing for the appointment of a Fire Marshal and thirty Fire Wardens, and defining the duties of the same. The following appointments were made under

Fire Marshal -- Wm. Wrigley. "
Fire Wardens-S. F. Wheeler, Wm. Roug,
amiel Williams, John Williams, A. K. Williams, T. J. Gordenler, W. S. Winsor, John Laird, N. R. Bates, C. M. Wheeler, J. A. Losce, Henry Marthu, James Phillips, Jacob Strauss, T. McCam bridge, F. W. Ames, Joseph T. Chase, O. K. Howe, H. G. Howe, M. B. McManus, C. A. Sciden, Patrick Newell, J. Sink, D. S. Quinby, H. L.

At the request of His Honor, the Mayor, the Fire Wardens above manuel are respectfully in-vited to call at his office, register their acceptance of their appointment and duly quality for the sauce. This organization it it will fulfil its duties can

render very essential service in case of fires in the removal of goods exposed to lice to a safe dace of deposit and guarding them from injury or depredations. If this body or a sufficien number of them will assume the management they can prevent the interference of officious persons, who frequently do more harm than good on such occasions.

The Fire Marshal is authorized to investigate

the origin of fires, summon witnesses and collect testimony in relation thereto, and arrest and prosecute parties suspected of incendlarism. The Wardens are to report their proceedings to the Common Council at its first meeting after a fire, but there is no such obligation laid up-on the Marshal to do so. It would seem far more important that he should make a report, as he is clothed with extraordinary powers, which insurance companies, the parties who suffer by the columity, and the whole community are in terested in having performed in a pompt, vigibut and thorough manner. The ordinance, it seems to us, ought to be amended in this r spect to be made affection :

Mr. Trumbull has reported, from the Judiciary Committee, a bill to regulate appointments to and removels from office. It provides that no officer of the United States, appointed on the nomination of the President by and with the adview and consent of the Senate, shall be remove ble except by the same agencies which concurred in his appointment, provided that in case of disability or misconduct the President may suspend the disabled or defaulting officer and desgunte some other to perform the durbsmill the Smate shall have an opportunity of sering on it. the President to report the facts of the case to the Squato within thirty days after its next meet-

Scoate, the President shall renominate a person to fill said vocamey within thirty days after the neeting of the Senate and the happening of the vacancy, and no such vacancy which has been filled by granting a commission, to expice at the end of the March session of the benate, shall be filled at the close of the session, except by and with the univice and consent of the Secate, and the expiration of the commission as provided by the Constitution-at the end of the session-shall construed as creating a new vacancy, which the President Is authorized to fill without

the advice and consent of the Senate.

The President shall not be authorized to IIII meancles during the recess of the Senate, unless hey impoen during recess by death, resignation, expiration of term, or other exusality, not de pending on the will or action of the President.

Wednesday on the Wood Farm adjoining the Stephenson Farm. This Is the first producing well on this new territory. It was flowing at the rate of 70 harrels per day. Several other wells are going down upon the same form and the dighest hopes are entertained of their succes-There is no saying how much oil lies hidden be eath these bills, and all it appears to require to the tap of the drill to make "the rock pour forth

rivers of oil."

The Yanney well, on the Wash, McClintook Farm, which was recently experimented on with per day. It appears to be a question of doubt as to whether the torpedo caused this result, as it was not until the well was drilled several feet deeper and struck a crevice that it began to bro dues so alumdantly. The torpedo experimenter will, nevertheless, insist that it was the explo-

sion and that alone which caused the increas BLANESS OF JUDGE PATION.-We regret to learn, says the Meadville Republican of Tuesday ton, of Conneautville. His health, which has been very poor for some years, was not able to stand the recent hot weather, and he is now prostrate on a had of sickness. He has resigned his position as President of the First National Bank of Connecutville, and his many friends will learn with sorrow that little hopes are entertained of his recovery,

STATE NORMAL SURGOD .- We have just re crived the special circular of this institution, be cated at Edinbora, Erle county, Pa., and presided over by J. A. Cooper. The fall term commences August 28th and ends November 30th, covering period of fourteen weeks. Those who are pre paring themselves to teach common schools maye nearly all their tuition paid by the State We shall refer to this matter again.

PRODUCTION OF OIL ON BULL RUN. We are informed that our estimate of the yield in thi-territory was less than the actual product, as given in our issue of July 24th. The following ntement is furnished as by Mr. Gray:

Morton well, 30 harrels; Lady Barringer, 150; Rattlesnake, 150; Shelley, 145; Jones, 12: Barringer, 125; Crocker, 400; Cornelius, 95; R. R. No. 1, 60; R. R. No. 2 has its engine broken down Total 1,147 harrels. All are pumping wells.

Basic Ball,--an Erisodil.--As our boys were on their way home from Eric yesterday, they found a little time on their hands while waiting at Corry for trains, and as they had not had enough of Base Ball during the two days past, the got up a scrub game with some Base Ball friendfoo't know the name of the club,) at Corry, and played four lunings, resulting in a score of 4 to 14. This time, we are happy to say, victory erened upon the hunners of the Union.

IMPORTANT TO TAXPAYERS .- Comissione Rolling has decided that when a tax for the grading or paving of streets, is assessed by municipal authority, and the payment thereof made compulsory, the amount paid may be deducted from the income of persons time assessed.

THE new Buffalo City Directory shows a popu lation of 125,000. This is claimed to be correct and exhibits wonderful progress. Buffalo is a big city-bigger than Cleveland. Chicago, an-other settlement on the lakes, claims a population of 264,000.

HON. WILLIAM D. KELLEY, in a letter to to J. M. Willis ficist, of the Lancaster, Express, de-clines being a candidate for the United States declares himself favorable to the elec tion of Thaddeus Stevens to that position. BETWEEN thirty-five and forty flat boats loaded

with oil were gorged against and above the new iron bridge in Oil City a few days since. Considerable oil floated down stream, and six or eighlioats were badly damaged.

. Mr. W. S. Markin, the sessie dealer of Rochester died a few days since.

Paumer, Pa., July 25, 1860. ors Morning Herald : Yesterday morning about four o'clock the bolicr attached to the engine drilling a well on the Smith Farm, Cherry Run, exploded with such force as to throw the cylinder and steam-chest pounds) through the large tank belonging to the Wade well, which contained about 400 barrels of

The oil on being thus suddenly liberated, at

Cherry Man Fire.

once caught fire, from a convenient furnace, and spreading with great rapidity, soon destroyed all of the tanks, houses, and well-rigs, down to and including the once famed Baker well. At one time the Reed well was in great danger, but fortunately escaped. The amount of oil consuc was about 3,000 barrels, and the number of wells burnt, 31. The engineer is charge of the boiler which exploded, had both legs broken and the shockingly mangled. His name was Augustus Bouse, a single man, and 24 years of age. The escape of his counade way infractions. He had just laid down in his bunk, remarking as he did eo, "I guess you've a pretly good head of stead ou," when the explosion took place, tearing the boiler in pieces, sending the cylinder through the tank as described, and throwing the ground part of the boiler, including the tubes, over the roof of the Cherry Valley Oil Company's office a dislance of more than thirty rods. piece of the boiler or engine that was not blown nt least thirty feet, and how any one could have poon in the engine house, and escaped alive, is

more than strunge.

The section barned over was the most proluctive on the Run, and probably more wells and tanks were here crowded together than it

any other place in the township.

The track of the Reno & Pithole Railroad was o much burned that trains did not run until to day, and owing to the trifling circumstance, that the employees relace to work until their back pay is forthcoming as agreed, no trains have been run since early this atoming. TROJAN.

# Admission of Tennessee.

In the Senate, Saturday, after much debate, the blowing presumble and resolutions were adpted The preamble is that which Mr. Trumball re ported from the Judiciary Committee of the Senate, and the resolution is that which was adopted in the House, with the exception of the vords-duly elected and qualified taking the oath of office required by existing

Whereas, In the year 1861, the Government of the State of Tennesse was seized upon and laken possession of by persons in hostility to the United States, and the inhabitants of said State,

possision of hy persons in hostility to the United States, and the industants of said State, in pursuance to an act of Congress, were declared to be in a state of Insurrection against the United States; and Whereas, Said State Government can only be restored to its former political relations in the United States; and Whereas, The people of said State did on the 23d day of February, 1855, by a large popular vote adopt and ratify a constitution and government republican in form and not inconsistent with the Constitution and laws of the United States, whereby shrerey was abolished and the ordinances of seces-ion and debts contracted under the same were declared vote, and whereas, A State government has been organized under the said constitution which has ratified the amendant to the Constitution of the United States abolishing slavery, and also the amendant proposed by the 3lift Congress; and Whereas, The body of the people of Tonnessee lave, by a proper spirit of buildinger to the Government and laws of the United States to traven of said State to the dividence to the Government and laws of the United States; therefore be it

Resolved, By the Senate and House of Representatives of the United States of the United States is the property of the States of America, In Congress assembled, that the State of Tennessee is prefer vestored to be former groupe practical

sentances of the United States of America, it Congress assembled, that the State of Tennesses is hereby restored to her former proper practical relation to the Union, and is again entitled to be represented by Senators and Representatives in Congress.

Good News Apour Coal.-The indication are that the yield of coal this season from the mines, will be so large as to prevent a further advance in prices and may even cause a material reduction. The Elmira Advertiser contains the following pathgraph which is very encouraging

following panagraph which to coal consumers:

There is no lot up to the continued a rival of large quantities of coal direct from the infines per can'd and railway. Int wholesate dediers have never filled so many or so large orders during any previous season. Should there be no hind-crance, the year will witness the marketing of more lons than ever before, and at reasonable rates. There is some doubt about any great further advance in price.

Tur. Republican County Committed of Eric county have decided to hold theh County Con-rention for the nomination of candidates on the third day of September next at Eric. The prin y meetings for the election of delegates to the

ame, will be held on the first of Sept. There are three candidates from Eric county for the Congressional nomination, and three for the Judielal nomination.

CHESP JOHN NO LONGER-A NEW-MAN IN DERD.—Mr. Charles Newman the enterprishe norchaut of this city, papularly known as Cheap John, returned from New York yesterday, a wiser and a happier man, laiving taken unto him lished daughters of the tribe of Levi.

Mu. WESTWORTH offered a resolution was adopted, requesting the Committee on Forign Affairs to enquire into the expediency of applying the same regulations towards Fenian pelligerents that were applied by Great Britain to rebels in this country.

WE understand that the apple crop in this cetion will not be an average yield. The trees fruited well, but the apples have been attacked by so many diseases and species of insects as t seriously impair their development.

GES, SHERIDAN, commanding at New Orleans, has isstict an order forbidding commemorative confederate monuments in his department, and dissblying all organizations for that purpose,

A BILL has passed the House allowing commu ation of rations to Union prisoners while conflued in rebel prisons. It will doubtless become

TAKE Notice!-Mr. George Deland, for three months past employed by us, as canvasse and collector, is not now in our employ. Our putrous and friends down the Creek, where he has been principally engaged, will please bear this in mind both in giving their orders for suberiptions and job work and in paying bills due. # FINANCIAL AND COMMERCIAL

PINANCIAL.

The Commercial's money article says: At the morning board 7-30s and 5-20s or 1854 and 18-50 were % better and 10-40s advanced %. After the beard a further advance of % percent was make upon those clusters of securities, with a very netive business. 5-20s of 1805 were quoted 104%@105%; do 1805, 104%@105%; 7-39s of all sories were firm at 103% bid and 103% asked,—Railtood stocks are generally than though loss, active Railroad stocks are generally flow though less active

than yesterday.

Money is offered rather than inquired for, and the rate lucines arough toward 4 per cent, though perhaps the majority of call coars are made at 5 per cent. Discour-are quiet at 5 % 657 per cent. Gold continues quiet an are quied at by 657 per cent. Good continues quiet and the price apparently fractines downward. The tenden-op however is not su flitchully strong to encourage any transactions. Leans are made mostly flatign some cases 3 per cent has been paid. For eigh Eschange continues very dull. There is al-most tou demand and rates are unsettled. Importers are indisposed to remit with gold at the present price, and homes bills are accumulating.

Sterling bills have been offered at W Institute the esta-

At a meeting of the Erle Directors, held yesterday At a meeting of the same intercors, near yestering it was determined to pass the dividend upon the con-mon and preferred stock of the road. It is also rumored that the road requires to borrow \$255,000 t

# VETROLEUM MARK ETS.

There is no change in the petroleum morket. Wi There is no change in the petroleum movket. We hear of sales on the crack at \$2,30,24.50. The views of buyers and sellers were still very wide upant, although there was every indication of the market being lower—one of the largest producing companies on the creek having fron tankage to the amount of 10,000 heartels, and having sufficient oil on hand to fill them are selling at the present low prices. This is an inflication that they lack confidence in the market, expecting to fill their tanks at lower rates.

fill their tanks at lower rates.

Other companies having demande of storage ca-pacity are also disposing of their oil at market rates from day to day, evidently lacking confidence in the fu-ture and afraid of fire.

The Baideman 10,000 barrel took on Boyd Farm is

about half filled with oil, bound at from \$2.00 to \$2.5. The Pittsburgh market is reported to have an abundant supply for the next 60 days, and miles there are better advices from Europe, the hope of an export departed advices from Europe, the hope of an export departed advices from Europe, the hope of an export departed advices from Europe, the hope of an export departed advices from Europe, the hope of an export departed advices from Europe, the hope of an export departed advices from Europe, the hope of an export departed and the first departed and first nand is very small.
The following is our weekly report from New York:

Nan York, July,25, 1866. Referring you to the annextd report of our petroleum market, for the week ending this day, I would remark:
